YESHIVA COLLEGE COMPUTER SCIENCE

Where Our Graduates Go

The full results behind our open-house poster: every class from 2017 to 2026. Updated October 2026.

At a glance

- **91% of graduates** (155 of 171) in the Classes of 2019–2026 had a job or graduate-school acceptance by graduation day.*
- **94 alumni** work today at 41 leading companies: the 22 Fortune 500 companies that employ our alumni, plus the top financial and technology firms listed below.
- **65 alumni** work at Fortune 500 companies (2026 Fortune 500 list).
- **16 alumni work at Amazon**, more than at any other company, followed by Google (8), BNY (5) and JPMorgan Chase (5).
- **Nearly half of our graduates** (93 of 187, Classes of 2017–2026) currently work at one of these leading companies.

**Results for the Classes of 2025 and 2026 include placements over the summer after graduation.*

Results by graduating class

Graduates with a job or graduate-school acceptance by graduation day:

Class	Graduates	Job or graduate school*	Share
2019	7	6	86%
2020	25	23	92%
2021	13	11	85%
2022	15	14	93%
2023	27	26	96%
2024	36	32	89%
2025	23	20	87%
2026	25	23	92%
2019–2026	171	155	91%

**Classes of 2025 and 2026 include results over the summer. Source: department records (YC CS annual job results).*

Where our alumni work today

Current employers (October 2026) of graduates from the Classes of 2017–2026: every Fortune 500 employer, plus the leading financial and technology firms on our poster. “Fortune 500” refers to the 2026 Fortune 500 list.

Company	Industry	Fortune 500	Alumni

Company	Industry	Fortune 500	Alumni
Total, 41 companies		22 companies	94

Our alumni also work at many other companies, including startups they founded. Clearpool Group is part of BMO Financial Group; Onshape is part of PTC.

First jobs and current jobs, by class

How many graduates of each class started their careers, and work today, at a leading company (a Fortune 500 company or one of the top financial and technology firms above). First-job figures leave out graduates whose first step after graduation was RIETS (rabbinical studies).

Class	Graduates	First job at a leading company*	Share	Works at a leading company today	Share
2017	5	0	0%	3	60%
2018	7	1	17%	3	43%
2019	8	3	43%	5	63%
2020	24	15	68%	12	50%
2021	14	4	36%	5	36%
2022	14	5	42%	6	43%
2023	28	21	91%	24	86%
2024	39	14	42%	17	44%
2025	23	10	50%	9	39%
2026	25	9	39%	9	36%
2017–2026	187	82	51%	93	50%

**Share of graduates who did not go to RIETS. First-job figures also count other Fortune 500 first employers (Charles Schwab, Chewy, Walt Disney, Berkshire Hathaway/GEICO). Three graduates without a recorded graduation date are not included.*

Recent classes in detail

Class of 2026

Destination	Students
Citi	4
Amazon	1
Bank of America	1
Dropbox	1
JPMorgan Chase	1
Vanguard	1
Startup founder (already has customers)	1
Smaller companies	5
Georgia Tech (graduate school)	4
Internship + Columbia M.S. in Operations Research	1
Internship + RIETS	2

Destination	Students
RIETS, not continuing in CS	1
Total	23

As of September 2, 2026, two more graduates were still searching (one began looking only after graduation).

Class of 2025

Employers include Amazon, Bloomberg, BNY, Cantor Fitzgerald, Capital One, CVS Health/Aetna, Healthfirst, IBM, Jack Jaffa and Associates, Microsoft, National Debt Relief, RDA (Reflective Distance Analytics), Sequence and Viam.

Class of 2024

Job offers from: Amazon, BNY, Bank of America, Capital One, GEICO, Jefferies, JPMorgan Chase, Nomura, Palantir, Prudential, Raytheon and Verisk.

Graduate-school acceptances: Bar-Ilan, Georgia Tech (3), NYU (2) and the University of Illinois Urbana-Champaign.

Classes of 2021–2023

Tech	Finance	Graduate school
Amazon (11)	BlackRock	Amazon + RIETS (3, +1)
Broadridge	Bloomberg	BNY Mellon + RIETS (1, +2)
Chewy	BNY Mellon	Columbia, M.S. in CS
CVS Health/Aetna	Charles Schwab	Google + RIETS
Databricks	Goldman Sachs (3)	NYU, M.S. in CS
Google	JPMorgan Chase (2)	RIETS (4)
Landis	Morgan Stanley	Tel Aviv University Medical School
Learn Ventures	Morningstar	
P&G	Nomura	
PTC (2)	PennyMac	
Scholastic	Vista Equity Partners	
SoftworksAI		
ZoomRPM		

Numbers in parentheses show multiple placements. “(x, +y)”: x students placed there, plus y who postponed graduation to intern there while attending RIETS.

Amazon@YU: Amazon comes to campus to recruit our students

Tuesday, October 20, 2026 · The Heights Lounge, Glueck Center, Wilf Campus

Amazon ran an evening of career conversations and recruiting for Yeshiva University computer science students: a fireside chat with senior Amazon leaders on the present and future of software engineering, insider guidance from Amazon recruiters on the application process, an open Q&A, and small-group and one-on-one conversations that continued late into the night. Juniors and seniors had the chance to meet senior tech leaders who could refer them for jobs and internships.

Nine members of Amazon's team took part, including a Director of Research Science (Amazon Ads), a Senior Manager at AWS, and four recruiters.

Prof. Akiva Sacknovitz coordinated the event for the Computer Science Department.

Graduate schools

Our graduates who continue their studies have been accepted to programs including Columbia University (M.S. in Computer Science; M.S. in Operations Research), NYU (M.S. in Computer Science at Courant; Ph.D.; Tandon), Georgia Tech (M.S.), the University of Illinois Urbana-Champaign, Carnegie Mellon University (Silicon Valley), Rutgers University (Ph.D., full fellowship), Bar-Ilan University and Tel Aviv University Medical School.

About these numbers

- Class results come from the department's annual job-results records. Current employers come from the department's alumni records as of October 2026.
- Fortune 500 membership is based on Fortune's 2026 Fortune 500 list (published June 3, 2026).
- Learn more about the department at yu.edu/yc/cs.
